Lane Creech Veg. Shipment Injured

Mrs. R. Y. Creech, Ir., and son, Lane, arrived home Wednesday from Carrolton, Ga., where Lane was released from the hospital May 16. He was injured in a freak accident oac. May 10, on the way to a Regional Golf Tournament, In accident occurred when he was under the car checking on the emergency brake, and a tire exploded, injuring his eyes. The car fell pinning him under it. Mrs. R. Y. Creech, Jr., and Everglades sweet corn ship-ments declined about 100 cars last week. Shipments are ex-pected to hold about steady as Zellwood makes a light start this week. The crop is in good condition and quality corn is being harvested. Central areas will be the principal source of supply during June, said G. Norman Rose of the Florida Crop and Livestock Reporting Service.

der it. Dr. Creech, his father who returned earlier after visiting him, said he was going to be alright. Lane is a student at Georgia Southwestern Col-lege, Americus.

Company Starts

Norman Rose of the Florida Crop and Livestock Reporting Service. Top and Livestock Reporting Service. The Service of the Servi The chartering of the Ten Investors, Inc., at 256 S. W. Ave. B, has been announced. Incorporators are, Rodney H. Connell, Pahokee, Herbert Connell, Pahokee, Herbert Laurence W. Connell. Lea-wood Fuller, Raymond Caruthers, Frank Cochran, all of Belle Glade, and William West them and Earl Mercelith, both will deal in real and personal property.

Jr. High Wins 3rd

The Farm Front

BY DOYLE CONNER
The prolonged drought which severely damaged live-stock and crops in 24 south Florida counties is one of the worst disasters ever suffered by our state's agricultural indus-

worst classiers ever suffered by our state's agricultural industry. While the cattle industry has borne the bruin of the lack of water and pasture grass, every agricultural commodity in the drought area has suffered to some degree. It is to the credit of both the federal government and the federal government and the State of Florida, working together in the interests of agriculture, that disaster aid was swiftly furnished farmers and cattlemen in the drought area. There has been some com.

cuttiemen in the drought area.

There has been some conjecture that the area should have been designated as a 'majere disaster' area by President of the President.

The proponents believe such action on the part of the President would have susured our making such a request of the President would have assured our such action on the part of the President would have assured our maximum of benefits available under all federal government disaster programs.

It also would have opened the Commodity Credit (corported principles) and the president programs.

It also would have opened the Commodity Credit (corported principles) and the president programs.

It also would have opened the Commodity Credit (corported principles) and the president programs.

It also would have opened the Commodity Credit (corported principles) and the president programs are also president programs. The desire producers not financially able to pay, helping those hardset-lit by the drought to get back on their The "disaster" status amore. The Belle Glade Garden Club held their annual instal-tion of officers at the Holiday Inn, Thursday, May 11th at 12:30 p. m. Seventeen mem-bers and six guests were in at-tendance. Gold color table-cloths and a lovely floral cen-ternicer made the Lichard

indance. Gold color table-cloths and a lovely floral centerpiece made the U-shaped table arrangement most attactive. The desire of the color of the

C. Festenden, as she completed her outh of office. Was from the company of t Citrus trees, too, were af-fected to a great degree and there is some fear among growers that this season's growers that this season's prime Valencia orange crops will be reduced in value due to the prolonged dry weather.

the prolonged dry weather.

Florida consumers will feel the pinch of yet another upsurge in food prices this year if predictions by federal government economists are boine on the property of the property of

Financial analysts cite three main reasons why consumers are feeling an 'ever-tighten-ing' pinch from food coin, There are the added millions of teen-agers in our homes, in-creased buying of expensive convenience food and the changing pattern of our eat-ning habits.

At the same time, finan-cial experts point out that fam-ily earnings have risen much more than food costs in re-

any earnings have risen much more than food costs in exmore than food costs in exThis item, they say, aborbs only 18.1 percent of the sayrage family's spending dollar, an all-time low proportion.

The financial experts contend the "squeeze" is a result of what you buy, how you buy and for how many you buy. Along with foods, there is expected to be upward pressure perceted to be upward pressure proceed to be upward pressure proceed to be upward pressure bousehold goods and entertainment.

The outlook is for higher housing costs, whether you rent or buy. Prices of appliances probably will be nudged upward again, too, as many companies try to lessen the profits squeeze they have experienced during the past few months.

months.

Because of the lagging turnover in new automobile sales
this past year ,the 1968 models will cost about \$100 more
than the new 1967 models and
will add to the general climb
in costs of all retail goods and
corrections.

Labor costs to many major industries are expected to reach new highs this year and also in 1968.

These increased production costs to the manufacturer will be nassed on to the consum-

While budget dollars shrink..

your electric dollars stretch!

The cost of nearly everything in your budget keeps going up. But one thing actually keeps coming down in price—electric service.

There have been 10 major rate reductions in the lest 10 years. Today, the average family served by Florida Fower & Light Company enjoys more modern electric comflorts and conveniences than ever before . . but the average price paid per kilowatt hour is one-third less than it was just 10 years ago. And today's unit cost is fower than the national average.

A bargain? You bet! And FPL continues to work and plan ahead to pp Sunshine Service-the "best buy" in your family budget. Stretch your dollars, the all-electric way.

Kill this pellitory weed in sugar cane. Use Atrazine. Here's how:

When you see pellitory weed starting to grow, apply Atrazine 8QW herbicide, pluy a little surfactant. You'll clean out infestations of this winter annual fast and effectively ... without hurting cane. Atrazine is safe to sugar cane. It will not injure your crop when you apply it as directed on the label. And since it's non-volatile, there's no dangeor diffit to adjacent, sensitive to the control pellitory at any stage of growth, early treatment assures best results. With pellitory at any stage of growth, early treatment assures best results. With pellitory nor grow more sugar cane per acre.

cane per acre.

That's because Atrazine prevents

pellitory from interfering with sugar cane tillering. Also, Atrazine helps make soil moisture and nu-trients available for your cane, and

trients available for your cane, and not for pellitory weed. So plan now to grow the maximum tonnage of sugar cane from each acre you plant this season. Just use Atrazine to control pellitory weed this winter. Contact your local supplier. Or for more information, write us. Geigy Agricultural Chemical S. Division of Geigy Chemical Corporation, Ardsley, New York.
